

# Deck Purge Box

DPB-107

Remove moisture and perform a vacuum leak test with the Global Ocean Design Deck Purge Box. The Deck Purge Box is used with Global Ocean Design self-sealing Purge Ports for end caps (PP-129) and glass spheres (PP-101) (sold separately). This patented Nitrogen-Free, compact unit allows you to deploy immediately after the purge process is complete.

## Advantages:

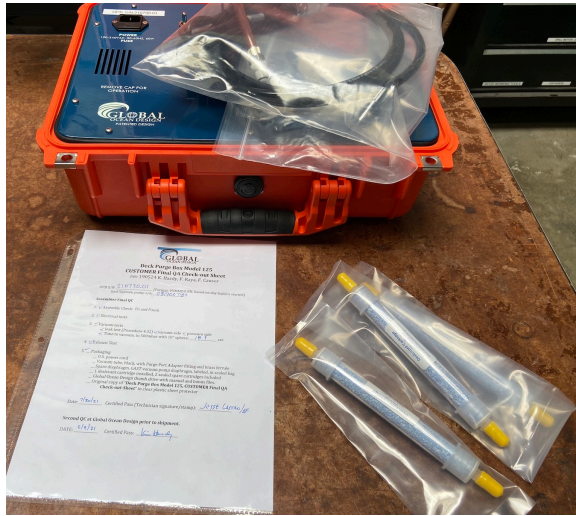

- Remove moisture and perform a vacuum leak test quickly and easily.
- NO high-pressure nitrogen tanks needed.
- Fully integrated, compact, and lightweight (10 lbs)
- Works with Global Ocean Design self-sealing Purge Ports for end caps (PP-129) and glass spheres (PP-101) (sold separately).
- Comes with a reverse pressure hose (DPB-213) to puff +5 psi into a cylinder to help remove a sticky end cap.
- Universal AC Power Supply allows operation anywhere in the world.

## Specifications

- Size: 16" x 13" x 7" (406mm x 330mm x 178mm)
- Weight: 10-lbs (4.5kgs)
- Power: universal 100-240 VAC, 50-60Hz, 100w. A Travel AC Plug Adapter is needed.
- Includes a 6-ft (1.8m) vacuum hose (DPB-118), a reverse pressure hose (DPB-213), 3 desiccant cartridges, a pdf manual, a spare fuse, a spare vacuum pump diaphragm, and factory QC check-out sheet.

# What's in the Box...

---
