Desiccant Cartridges

DPB-108

The indicating desiccant cartridge provides the means to remove moisture from inside the housing. As water vapor is absorbed, the desiccant shifts from blue to pink.

Handy Tip:

Spare Desiccant Cartridges (DPB-108) will remain fresh much longer if sealed inside a steel 1-gallon paint can (6-1/2" Dia x 7-1/2" Ht) such as McMaster-Carr p/n 4084T66.

Companion Product:

Deck Purge Box

DPB-107

The patented Deck Purge Box dynamically removes moisture vapor from undersea housings and provides a vacuum leak test to check seal integrity.
