

Purge System Connector

PP-127

The Purge System Connector allows end users with their own preferred purge system to connect to the full line of Global Ocean Design self-sealing purge ports.

Also useful in the lab to relieve a vacuum in a housing before disassembly.

Key Features:

- Precision machined Stainless Steel
- Fits all Global Ocean Design Purge Ports

Notes:

- The Global Ocean Design Deck Purge Box (DPB-107) has a Purge System Connector (PP-127) included with the system.
- The Purge System Connector (PP-127), alone requires a customer furnished vacuum purge system.
